Unpacking tealdeer (1.7.2-1+deb13u1) ...
Setting up tealdeer (1.7.2-1+deb13u1) ...
Processing triggers for man-db (2.13.1-1) ...
rfrancis@cis106:~$ tldr -u
Successfully created cache directory path `/home/rfrancis/.cache/tealdeer`.
Successfully updated cache.
rfrancis@cis106:~$ tldr echo
Print given arguments.
See also: `printf`.
More information: <https://www.gnu.org/software/coreutils/manual/html_node/echo-invocation.html>.
Print a text message. Note: Quotes are optional:
echo "Hello World"
Print a message with environment variables:
echo "My path is $PATH"
Print a message without the trailing newline:
echo -n "Hello World"
Append a message to the file:
echo "Hello World" >> file.txt
Enable interpretation of backslash escapes (special characters):
echo -e "Column 1\tColumn 2"
Print the exit status of the last executed command (Note: In Windows Command Prompt and PowerShell the equivalent commands are `echo %errorlevel%` and `$lastexitcode` respectively):
echo $?
Pass text to another program through `stdin`:
echo "Hello World" | program
rfrancis@cis106:~$ tldr data
Warning: Page `data` not found in cache.
Try updating with `tldr --update`, or submit a pull request to:
